Motion Carried.

KW Electric proposal for adding UPS to emergency power at the Dodge County Administration Building a couple weeks ago the Dodge County Administration Building had a power outage due to the compressor for the air conditioning unit which tripped the main breaker for the whole building. The current UPS system that runs the network and phones is not on the generator, which after 1-2 hours caused network and phones to go down completely leaving no communication except for cell phones. The installation of the new transformer would upgrade the UPS maintaining network and phone communication in the event of a power outage. **A motion** was made by Mark Roesch and seconded by Cathy Houchin to approve the proposal for adding UPS to emergency power at the Dodge County Administration Building. Motion carried.

Dodge County Detention Facility

Repair of Sally Port Doors two huge doors on the south and north side of the Sally Port have rusted steel about 5 feet up the side of the door that needs replacing. Beaver Blacksmith would be able to cut and re-weld the steel. We will get a price from Beaver Blacksmith.
