Report from Members:

Public Health: Sleep Baby Safe grant from the State and Public Health is providing education to community groups, daycares and hospitals.

CARES coalition: Our summit in April focused on Adverse Childhood Experiences. We are going to be following up with a viewing on Paper Tigers, a film which documents how a school district changed their teaching techniques and process to address children's/adolescents dealing with ACES and how it affects how they learn. The film will be shown at 10/13/17 at 1PM and 6PM with follow up discussions after each showing. We have recruited some new members to the CARES coalition and we also have a subgroup that is forming based on the work we are doing.
