

What is Transition?

Transition means coordinating your activities that promote movement from high school to post-school activities, including post-secondary education, vocational training, integrated employment (including supported employment), adult services, independent living, or community participation. This coordination shall be based on your needs, strengths, preferences, and interests.

The ADRC can assist with connecting you with adult services and supports while you are still involved in school transition activities.

When do I ask ADRC for help?

At 17 years 6 months, we can meet with you and your family to begin the formal process to connect you with the resources to transition into adult life as you turn 18.

We often meet with families any time after 14 years old, either at a school meeting or a home visit. At this time, we begin to share different resources available as supports change when you turn 18.

Transition Resources
